

## CAJUN MOON

*Em A Em A Em B7 A Em*

*Riff E blues d b couplet*

### *Chorus*

Cajun moon  
Where does your power lie  
As you move  
Across the southern sky  
You took my babe  
Way too soon  
What have you done  
Cajun moon

Someday babe  
When you want your man  
And you find him gone  
Just like the wind  
Don't trouble your mind  
Whatever you do  
'Cause Cajun moon  
Took him from you

### *Chorus*

### *Solo*

When daylight fades  
The night comes on  
You can hear the silence  
Of this song  
Don't trouble your mind  
Whatever you do  
'Cause he got me  
Like he got you

### *Chorus*
