Maybe there is another way
Of spending most of my time
Keeping my head above water
And clinging to the straight line
Looks like it never stops pouring down
Seems I'll have to make do
Cast my fate to the wind and wait
Till I can drown my sorrows in you

Chorus 1

I'm not waiting for a promise
No horizon shining in gold
Just a night or two of me and you
Bring me in from the cold
Some sweet intoxication
From a bottle labeled in blue
Want to stay until I've drunk my fill
Want to drown my sorrows in you

Peace and love had its moments now
The rainbow's gone from the sky
I couldn't look when the roots came up
Now the tree lies empty and dry
Born in an age of uncertainty
Raised to learn every rule
I have my doubts what it's all about
Need to drown my sorrows in you

Chorus 2

Going to break the bottle open
And we'll have a party for two
Drink away the cold let love unfold
want to drown my sorrows in you
Some sweet intoxication
From a bottle labeled in blue
Want to stay until I've drunk my fill
want to drown my sorrows in you
