Intro riff = A E F#m E F#m

Verse = A E F#m E F#m (X3) - D E

Chorus = D E A, D E F#m, D E A F#m D E ~ A > riff

Sometimes you feel it in the wind - You see it in the sky
 You get the strangest feeling - Someone just passed by
 Listen to the rhythm - Hear that guitar play
 I can feel them here with us - They never went away

CHORUS 1

Johnny and the king - You want to hear them play
 Johnny and the king - You hear them say ay ay ay ay
 The man in black is talking - You can hear them sing
 Side by side - Johnny & the king

Breaking rules and breaking hearts - So the story goes
 Drifting 'cross the country - there in the shadows
 Somewhere in the sunset - Somewhere far from home
 Hear the song they sing to you - You'll never be alone

Repeat CHORUS 1

Somewhere a guitar's strumming - A voice sings harmony
 No matter what they're singing - the song's for you and me
 If you're feeling down and blue - or maybe chilled to the bone
 put a dime in the jukebox - you'll never be alone

CHORUS 2

Johnny and the king - Where did it all go wrong?
 Johnny and the king - It was just a so o ooo ong
 Sometimes they'll leave you crying - Some days it's joy they
 bring
 Side by Side - Johnny and the king
