

# PLAY THAT FUNKY MUSIC WHITE BOY

*Wild Cherry 66 [Intro]*

Hey, do it now

Yeah, hey

Hey, once I was a boogie singer      Playin' in a Rock and Roll Band  
I never had no problems, yeah      Burnin' down the one night stands  
And everything around me, yeah      Got to stop to feelin' so low  
And I decided quickly      To disco down and check out the show

## **Chorus unisolo**

**And they were dancin' and singin' and movin' to the groovin'  
And just when it hit me somebody turned around and shouted:  
Play that funky music white boy  
Play that funky music right  
Play that funky music white boy  
Lay down the boogie and play that funky music till you die  
'Til you die                                      Oh ya, ya**

I tried to understand this                      I thought that they were out of their minds  
How could I be so foolish                      To not see I was the one behind  
So still I kept on fighting                      Well, losing every step of the way  
I said, I must go back there                      And check to see if things still the same

## **Repeat Chorus unisolo**

## **Guitar solo 12 bars**

Now first it wasn't easy                      Changin' rock and roll and minds  
And things were getting shaky                      I thought I'd have to leave it behind  
But now it's so much better                      I'm funkign out in every way  
But I'll never lose that feelin'                      Of how I learned my lesson that day

## **Repeat Chorus unisolo**

**until you die! Until you die! X2 E > G ...play that....**
