

WELL I DONE GOT OVER IT

[Chorus]

Well I done got over it
Lord I done got over it
You know I done got over it
Well I done got over it
Well I done got over it
I done got over at last

[Verse 1]

Now the day that I first met you
You seemed such a sweet little thing
But after a while you got so bad
You know it was a cryin' shame

[Chorus]

[Verse 2]

Now I was so in love I was miserable
Although I know my love was in vain
'Cause every time I turned my back
You was out with some other man

[Chorus]

[Verse 3]

Now I didn't want you to be no angel
Or neither no gal with jive
All I wanted was some good woman
Just to keep me satisfied
